JUNE 16-19, 2021

Gross Anatomy Lab
Procedural Cadaver Lab
Rosh Anatomy & Procedures QBanks

COURSE INFORMATION

OUR COMPANY

GTI has trained thousands of Advanced Practice Providers utilizing cadaveric tissue for advanced procedural training. We have partnered with AAENP and Rosh Review. To meet these needs, our team has created mobile courses across the country in destination locations.

Hundreds of AAENP members and advanced practice providers have participated in this popular ENP Procedures Lab. This course provides 47.0 contact hours (ANCC) and meets the 30-procedural hours for eligibility to sit for the Emergency Nurse Practitioner (ENP) Certification Board.

Many participants report these courses assisted them in passing the ENP exam and many of our didactic portions are specifically addressed on the exam. Our team is honored to support all Advanced Practice Providers across the U.S.

COURSE CURRICULA

Airway Techniques

- Intubation
- Airway adjuncts
- Surgical airway
- Mechanical ventilation
- Non-invasive ventilator management
- Ventilator monitoring
